What to Expect During my Scan?

You'll lie on a cushioned table that slides into the MRI machine. Depending on the area being examined you may enter the machine headfirst or feet-first.

The machine makes loud tapping/thumping noises. We will provide headphones and your favorite music to minimize any discomfort.

You'll be in contact with the technologist during your scan. If you feel anxious or uncomfortable, you can alert them at any time.

Our radiologists will review your images and **you'll meet with an onsite physician to discuss the results of your scan.** A detailed report will be sent within a few days via our secure online portal. You can login and view/download your results at your convenience.
